MEDCOMPLI™

Super-easy, Super-fast Deployment for Small and Mid-size Companies.

Customized to fit your needs, **MedCompli** has the compliance tools growing companies need.

> **The MedCompli team of transparency experts will review, prepare, and submit all data directly to CMS on your behalf as part of the annual subscription.**

Key Features Include:

Transparency Reporting: CompliSpend is expressly designed to assist companies in accurately reporting transfers of value made to healthcare professionals & institutions. We simplify the process of consolidating the needed data to ensure compliance with both federal and state transparency mandates.

End to End HCP Engagement: The MedCompli™ Consultant Contract Management Module provides a comprehensive solution to effectively and efficiently manage the challenging tasks associated with engaging a Healthcare Professional (HCP).

Fair Market Value Model: MedCompli provides compensation rates by specialty and an FMV model that considers each HCP's unique qualifications.

Additional optional features include Third Party Due Diligence, Event Management, Compliance Monitoring, Compliance Hotline, Charitable Donations and so much more.

Subscription
/$7,500 Annually

Additional fees may apply based on additional modules, the number of third parties screened or complexity of custom questionnaires.

What Our Customers Say

MedCompli makes compliance a competitive advantage.

MedCompli is the #1 Cloud-based Compliance Management System for Life Sciences.

A Quick Start Solution for Small and Mid-size Companies

Within weeks, your company could be using the MedCompli Compliance Platform, the life science industry's most advanced cloud-based compliance system!

To help you rapidly realize value, we've created a special program, **MedCompli QuickStart**, specifically for small and medium-sized life sciences organizations. We will deploy MedCompli in your organization for a fixed and affordable price, enabling new processes and compliance functionality in no time at all.

Through extensive work with life sciences organizations, we've already configured our compliance system to meet industry needs, so your organization can easily monitor and manage risk.

Plus, MedCompli's robust multi-tenant, cloud-based platform can scale quickly to meet your business demands, so whether you are bringing new products to market, growing your organization or moving into new therapeutic areas, you will never outgrow your compliance tools.

Now you can bypass both complex systems that are inflexible, difficult to implement and expensive to maintain, and fully customized generic solutions that weren't designed for the life sciences industry.

Robust, Preconfigured Functionality

The MedCompli QuickStart program offers best-in-class functionality to manage HCP relationships, enhance third party due diligence and drive ethical behavior. It comes complete with the planning and reporting tools for managing your HCP relationships and transparency data.

In time and as needed, you can add other features and products to MedCompli platform to further strengthen your compliance program.

Continual Enhancements

MedCompli delivers major system enhancements at no additional cost and without interruption to your service. Thanks to the cloud-based platform, updates happen automatically, behind the scenes, without disruption – just turn on the features that are right for you.

No-Hassle Start-up

Our Professional Services team will handle the implementation for you, facilitating and accelerating the process so your new compliance system can be live within weeks.
